

OP Sept Basic Bio-wipes

Product information

Product description

OP Sept Basic Bio-wipes are ready-to-use, fragrance-free and alcohol-based disinfectant wipes for hygienic and surgical hand disinfection. The wipes are made of 100% biodegradable fabric with optimum active ingredient delivery.

Area of application

Suitable for all areas of human hygiene.

Instructions for use

Before disinfection, clean heavily soiled hands with soap and water. Wet the dry hands with the wet wipe and keep moist for the entire exposure time; use another wipe if necessary. For professional use only.

OP Sept Basic Bio-wipes

Product information

Medical device class

no medical device

Biocide registration number

N-97412

Use biocides safely. Always read the label and product information before use.

Composition

The active ingredients contained in 100 g impregnating solution are:

73,5 g Ethanol

Chemicophysical data

Colour colourless

Appearance clear

State liquid

pH-value (20°C) 6,0 – 8,6

Density (20°C) 0,855 – 0,865 g/ml

Storage and shelf life

Shelf life

24 months

Shelf life after opening

28 days

Carefully reclose container after each use.

Only use damp wipes.

Storage environment requirements

Store the product tightly closed in a well-ventilated location and protect it against unauthorised access. Observe the following storage temperature limits.

Description	Unit	Value
Temperature limits for short-term storage (min. - max.)	[°C]	0 - 40 ¹⁾
Ambient temperature for long-term storage according to shelf life (min. - max.)	[°C]	20 - 25

¹⁾ Short term storage (max. 24 h) up to max. 40 °C has no effect on the effectiveness of the product.

Disposal

Disposal must be carried out in accordance with applicable national and local regulations. Please also note the information from the Material Safety Data Sheet.
