

# OP Sept Classic

## Product information

### Product description

OP Sept Classic is a ready-to-use, alcohol-based disinfectant for hygienic and surgical hand disinfection.

### Area of application

Suitable for all areas of human hygiene.

### Instructions for use

If the hands or surfaces are heavily soiled, wash them before disinfecting. Dry the wet hands before disinfecting. For hygienic hand disinfection, add 3 ml to the palm of the hand and rub thoroughly with both hands for 30 seconds so that the hands are completely wetted. Make sure the spaces between the fingers, skin creases and corners of the fingernails are also completely wetted. Keep your hands moist for the entire exposure time of 30 seconds and re-dose if necessary. For surgical hand disinfection, rub 3 ml into the hands so that the entire palm of the hand, including the problematic interdigital and nail bed areas, is wetted for 90 seconds.

Keep your hands moist for the entire exposure time of 90 seconds and re-dose if necessary.

After the exposure time of 30 or 90 seconds has elapsed, the disinfection is complete.

### Exposure times

OP Sept Classic	Condition		Norm	Exposure times
	dirty	clean		
Bactericidal		x	EN 13727	30 sec.
Yeasticidal		x	EN 13624	30 sec.

601121	500 ml	bottle	18 x 500 ml
601122	1 L	bottle	10 x 1 L
601123	5 L	canister	2 x 5 L

## OP Sept Classic

Product information

### Medical device class

no medical device

### Biocide registration number

N-45060

Use biocides safely. Always read the label and product information before use.

### Composition

The active ingredients contained in 100 g are:  
70 ml 2-Propanol

### Chemicophysical data

- Colour colourless
- Appearance clear
- State liquid
- pH-value (20°C) 7,5 – 8,5
- Density (20°C) 0,871 – 0,881 g/ml

### Storage and shelf life

#### Shelf life

36 months

#### Shelf life after opening

12 months

Carefully reclose container after each use.

### Storage environment requirements

Store the product tightly closed in a well-ventilated location and protect it against unauthorised access. Observe the following storage temperature limits.

Description	Unit	Value
Temperature limits for short-term storage (min. - max.)	[°C]	0 - 40 <sup>1)</sup>
Ambient temperature for long-term storage according to shelf life (min. - max.)	[°C]	20 - 25

<sup>1)</sup> Short term storage (max. 24 h) up to max. 40 °C has no effect on the effectiveness of the product.

### Disposal

Disposal must be carried out in accordance with applicable national and local regulations. Please also note the information from the Material Safety Data Sheet.
