

DrDeppe disinfectants and their efficacy against coronavirus SARS-CoV-2 including SARS-CoV-2- variant Omicron

Coronaviruses are enveloped viruses that belong to the Coronaviridae family.

Among other things, they cause respiratory diseases. These enveloped viruses can be inactivated by active against enveloped viruses disinfectants.

In order to make it easier for you to select DrDeppe disinfectants, we recommend the listed products below.

These disinfectants meet the requirements active against enveloped viruses and can therefore be used:

 Skin- and hand disinfection	 Hand decontamination	 Surface disinfection	 Instrument disinfection
Lotio 2 in 1	Lotio HD	Lotio 2 in 1	Endo Star Neu
Op Sept		Spray In QF	Instru Extra
