### Notes:

In order to be able to guarantee the indicated shelf life of DrDeppe products in opened container, the following must be observed:

- opened container shows no damage after opening
- product removal under hygienic conditions
- carefully reseal immediately after each use
- do not return product that has already been removed to the original container
- when using a dispenser, avoid evaporation of the product content

**The user is responsible for the shelf life labeling in the opened container.**

**The above information applies only to opened original container.**
