

Spray In GA

Product information

Product description

Spray In GA is a ready-to-use, liquid, low-alcoholic disinfectant for surface disinfection. The product shows very good material compatibility under the specified exposure times. Spray In GA is available in the variants Neutral (without fragrance), Melone (fruity fragrance) and Aktiv (fresh fragrance).

Area of application

For rapid disinfection of alcohol resistant surfaces in the vicinity of patients, in clinics, surgeries, outpatient departments and care areas, as well as in industry and public facilities.

Spectrum of activity

- bactericidal (incl. MRSA), yeasticidal
- tuberculocidal, mycobactericidal
- active against enveloped viruses (incl. HBV, HIV, HCV, vaccinia-, influenza- and corona-viruses)
- limited spectrum of virucidal activity (incl. noro-, rota-, adeno-viruses)
- effective against Polyoma SV-40

Instructions for use

The ready-to-use product is preferably to be used in the wiping method using a disposable wipe. Spray disinfection should preferably be limited to areas that are not reachable by wiping disinfection. When using the spray method, it should be combined with wiping method. It is important to keep the surface to be disinfected moist throughout the entire contact time to achieve effectiveness.
