

Spray On

Product information

Product description

Spray On is a liquid, aldehyde- and QAV-free, ready-to-use alcoholic surface disinfectant.

Area of application

It is suitable for disinfecting alcohol-resistant surfaces in the food sector, public facilities, and industry.

Spectrum of activity

- bactericidal (incl. MRSA), yeasticidal
- active against enveloped viruses (incl. HBV, HIV, HCV, vaccinia-, influenza- and corona-viruses)

Instructions for use

The ready-to-use product is preferably to be used in the wiping method using a disposable wipe. Spray disinfection should preferably be limited to areas that are not reachable by wiping disinfection. When using the spraying method, it should be combined with wiping for effective disinfection. It is important to keep the surface to be disinfected moist throughout the entire contact time to achieve effectiveness.

The biocide product Spray On (active ingredients Propan-1-ol and Propan-2-ol) has been approved for product type 2 (disinfectants and algacides not intended for direct application to humans and animals) and product Type 4 (food and feed area) with approval numbers EU-0027669-0000 and CH-0031683-0000. The union authorization is valid until July 31, 2032.
