

Endo Star Neu

Product information

Product description

Endo Star Neu is an aldehyde- and phenol-free instrument disinfectant concentrate for the reprocessing of surgical instruments, as well as thermolabile anaesthesia equipment and rigid endoscopes in immersion or ultrasonic bath. Also suitable for drills or rotating instruments.

Area of application

For all areas where medical instruments are reprocessed using immersion or ultrasonic bath methods. Endo Star Neu is not suitable for the final disinfection of semicritical instruments.

Spectrum of activity

- bactericidal (including MRSA), yeasticidal
- tuberculocidal
- active against enveloped viruses (including HBV, HIV, HCV, vaccinia-, influenza-, and corona viruses)
- instrument disinfection in an ultrasonic bath

Instructions for use

Immersion method

Insert instruments after cleaning. All surfaces and cavities must be covered or filled. Please follow the application concentration and contact times. Remove instruments, rinse thoroughly with water (potable quality), and dry. Follow the hygiene requirements for the reprocessing of medical devices (in Germany: RKI, KRINKO, MPBetreibV). Follow the instructions of the instrument and equipment manufacturers.

Ultrasound application

Similar to the immersion method. Adhere to the contact times specified for ultrasound application.

Product change

Endo Star Neu is not compatible with aldehyde-based disinfectants. For initial use and product change, thoroughly clean and rinse the instruments and accessories, trays, reprocessing equipment, and application aids. The working solution is resistant to protein and can potentially be reused multiple times. If cloudiness or visible contamination occurs, it is recommended to replace the working solution.

For professional use only.

Endo Star Neu

Product information

Medical device class

IIb

Composition

The active ingredients contained in 100 g:

5 g Alkyldimethylethylammoniummethylsulfate

1 g Polyhexamethylenebiguanide hydrochloride

1.8 g Cocospropylguanidiniumdiacetate

Storage and shelf life

Shelf life

36 months

Shelf life after opening

12 months

Close the container carefully after each use.

Store the product in a well-ventilated place in a sealed condition and protect it from unauthorized access.

Exposure times

Endo Star Neu	condition		norm	concentration	exposure time
	dirty	clean			
bactericidal		x	EN 13727 EN 14561 / VAH 15	3%	15 min.
yeasticidal		x	EN 13624 EN 14562 / VAH 15		
tuberculocidal (M. terrae)		x	EN 14348 EN 14563		
active against enveloped viruses acc. to DVV/RKI (Vaccinia strain Elstree, BVDV)	10% FBS		DVV/RKI		
active against enveloped viruses acc. to EN 14476 (Modified Vaccinia Ankara)		x	EN 14476	1%	15 min.
instrument disinfection in an ultrasonic bath	x		VAH 15	3%	5 min.
