

OpPlus

Product information

Product description

OpPlus is a ready-to-use, alcohol-based antiseptic for hygienic and surgical hand disinfection. It is applicable in all areas of human hygiene and exhibits very good skin compatibility with frequent use.

Area of application

Hospitals and other healthcare facilities, clinics, medical practices, nursing homes (including home care for patients), hospital cafeterias, large kitchens, pharmaceutical industry, production facilities, and laboratories.

Spectrum of activity

- bactericidal (incl. MRSA), yeasticidal
- tuberculocidal
- active against enveloped viruses (incl. HBV, HIV, HCV, vaccinia-, influenza- and corona-viruses)
- effective against noro-viruses

Instruction for use

Before disinfection, clean heavily soiled hands with water and soap. Allow wet hands to dry before disinfection. For hygienic hand disinfection, apply 3 ml to the palm and rub both hands intensively for 30 seconds, ensuring complete coverage.

It is important to ensure that spaces between fingers, nail edges, and skin folds are also thoroughly covered. Throughout the entire contact time of 30 seconds, keep the hands moist and, if necessary, reapply. For surgical hand disinfection, apply enough to wet the entire palm for 90 seconds, including problem areas such as interdigits and nail fold. Throughout the entire contact time of 90 seconds, keep the hands moist and, if necessary, reapply. After the contact time of 30 or 90 seconds, the disinfection is complete.

The biocidal product OpPlus (active ingredients: Propan-1-ol and Propan-2-ol) has received Union and Swiss authorizations for product type 1 (disinfectants for human hygiene) with authorization numbers EU-0027670-0000 and CH-0031687-0000. The Union authorization is valid until July 31, 2032.
