

# OpSept Classic perfume-free

Product information

## Product description

OpSept Classic perfume-free is a ready-to-use, residue-free, alcohol-based disinfectant for hygienic and surgical hand disinfection.

## Area of application

Applicable in all areas of human hygiene.

## Spectrum of activity

- bactericidal (incl. MRSA), yeasticidal
- active against enveloped viruses (incl. HBV, HIV, HCV, vaccinia-, influenza- and corona-viruses)
- limited spectrum of virucidal activity (incl. noro-, rota-, adeno-viruses)

## Instruction for use

Before disinfection, clean heavily soiled hands with water and soap. Allow wet hands to dry before disinfection. For hygienic hand disinfection, apply 3 ml to the palm and rub both hands intensively for 30 seconds, ensuring complete coverage. It is important to ensure that spaces between fingers, nail edges, and skin folds are also thoroughly covered. Throughout the entire contact time of 30 seconds, keep the hands moist and, if necessary, reapply. For surgical hand disinfection, rub 3 ml into the hands so that the entire palm, including problem areas such as the interdigits and nail folds, is wet for 90 seconds. Keep the hands moist throughout the entire contact time of 90 seconds and, if necessary, reapply. After the contact time of 30 or 90 seconds, the disinfection is complete.
