Application-specific instructions for use

Adults and children of 12 years and above: 3 ml.
The amount of liquid shall resemble the size of a large-sized coin. Children under 12 years: 1,5 ml.

Application rate(s) and frequency

The product shall be used on visibly clean hands. If hands are dirty, wash with soap and water, rinse and dry before applying the product. The product is ready-to-use. The product shall be either applied directly or used in a dispenser or with a pump.

Step 1: Apply the following amount of disinfectant: adults and children of 12 years and above: 3 ml; children under 12 years: 1,5 ml. Rub into palm of hand. Rub palm to palm to spread disinfectant over entire hands and fingers.

Step 2: Rub the back of your left hand with the palm of the right hand. Reverse and repeat action.

Step 3: Open fingers and rub the finger webs. Reverse and repeat action.

Step 4: Rub palm to palm with fingers interlocked (5 times).

Step 5: Rub thumb of each hand using a rotating movement.

Step 6: Rub the tips of the fingers against the opposite palm using circular movement. Rub wrist with both hands. Allow hands to dry completely. Keep wet for 30 seconds against bacteria, yeast, tuberculosis bacteria and enveloped viruses. Do not rinse. Repeat if renewed hand disinfection is required.

Adults and children of 12 years and above: up to 10 × per day. Children under 12 years: up to 3 × per day.

Use-specific risk mitigation measures

Use for children (age > 1 year) only under supervision of an adult.
