Beta Guard Neu

Product information

Product description

Beta Guard Neu is a concentrated liquid, alcohol- and aldehyde-free surface disinfectant.

Area of application

For the disinfection of wipe-resistant surfaces in the patient environment, in clinics, practices, outpatient departments, and care areas, as well as in industry and public facilities. Excluded are surfaces of instruments, semi-critical and critical medical devices. For professional use only.

Spectrum of activity

- bactericidal (incl. MRSA), yeasticidal
- tuberculocidal, mycobactericidal
- active against enveloped viruses (incl. HBV, HIV, HCV, vaccinia-, influenza- and corona-viruses)
- limited spectrum of virucidal activity (incl. noro-, rota-, adeno-viruses)
- virucidal effective against Polyoma SV-40

Instructions for use

A diluted solution must be prepared before using the product. For this, the required amount of concentrate is mixed with water (drinking water quality). The prepared working solution should preferably be used by wiping with a disposable wipe. Spray disinfection should preferably be limited to areas that cannot be reached by wipe disinfection. When using the spray method, this should be used in a combination of spray/wipe method. The surface to be disinfected must be kept moist for the entire contact time in order to achieve effectiveness.

Surface disinfection

Beta Guard Neu

Product information

Medical device class
IIa

Biocide registration number
N-77462
Use disinfectant safely. Always read the label and product information before use.

Composition

The active ingredients contained in 100 g:
7.0 g Alkyl (C12-16) dimethylbenzyl ammonium chloride
5.0 g N-(3-Aminopropyl)-N-dodecylpropane-1,3-diamine
2.0 g 2-Phenoxyethanol

Storage and shelf life

Shelf life:
36 months

Shelf life after opening:
12 months

Close the container carefully after each use.

Store the product in a well-ventilated place in a sealedcondition and protect it from unauthorized access.
