Beta Guard rfu

Product information

Product description

Beta Guard rfu is a ready-to-use, liquid, alcoholand aldehyde-free surface disinfectant.

Area of application

It is suitable for rapid disinfection of wipe-resistant surfaces in patient environments, clinics, practices, outpatient departments, and care areas, as well as in industry and public facilities.

Spectrum of activity

- bactericidal (incl. MRSA), yeasticidal
- tuberculocidal
- active against enveloped viruses (incl. HBV, HIV, HCV, vaccinia-, influenza- and corona-viruses)
- limited spectrum of virucidal activity (incl. noro-, rota-, adeno-viruses)

Instructions for use

The ready-to-use product is preferably to be used in the wiping method using a disposable wipe. Spray disinfection should preferably be limited to areas that are not reachable by wiping disinfection. When using the spray method, it should be combined with wiping method. It is important to keep the surface to be disinfected moist throughout the entire contact time to achieve effectiveness.
