Instru Zym wipes

Product information

Product description

Instru Zym wipes are ready-to-use enzyme-based cleaning wipes. The wipe material is made from cellulose fibres, which are produced from wood, a renewable raw material.

Area of application

Instru Zym wipes werden zur Vorreinigung von Endoskopen und medizinischem Zubehör, sowie für chirurgische und orthopädische Instrumente eingesetzt. Dabei werden grobe, organische Verschmutzungen materialschonend entfernt.

Instructions for use

After use, wipe the instrument to be cleaned thoroughly with an Instru Zym wipe as soon as possible. If necessary, repeat with a new wipe until the surface is visually clean. Preferably, pre-cleaning with Instru Zym wipes should be carried out from the clean end of the instrument towards the dirty end. For professional use only.

Product range and specification

item number	container size	wipe size	container type	packaging unit	PCN (each)	EAN/GTIN (each)	EAN/GTIN (packaging unit)
