Spray In QF wipes

Product information

Product description

Spray In QF wipes are ready-to-use alcohol-based surface disinfectant wipes, free from aldehydes and QAVs. The wipe material is made from cellulose fibres, which are produced from the renewable raw material wood.

Area of application

For rapid disinfection of alcohol-resistant surfaces in patient-related environments, in hospitals, clinics, outpatient clinics and care areas, as well as in industry and public institutions. This excludes surfaces of instruments resp. semi-critical and critical medical devices. Spray In QF wipes are also suitable for use by persons in the food sector, have been certified as HACCP-compliant in accordance with EU Regulation (EC) No. 852/2004 and can be used safely as part of an HACCP concept.

Spectrum of activity

- bactericidal (incl. MRSA), yeasticidal
- tuberculocidal, mycobactericidal
- active against enveloped viruses (incl. HBV, HIV, HCV, vaccinia-, influenza- and corona-viruses)
- limited spectrum of virucidal activity (incl. noro-, rota-, adeno-viruses)

Instructions for use

The ready-to-use product is used by wiping. It is essential to keep the surface to be disinfected moist throughout the entire exposure times to achieve effectiveness.
